Subject: Additional COPC Mapping Information
20150414 CPG COPC Mapping Follow-up to EPA.pdf

Stephanie:

Attached is the additional information regarding COPC mapping that we discussed. The CPG is providing this information for EPA's internal call on Thursday to discuss mapping. Nonetheless, the CPG would still like the opportunity to meet with Region 2 and HQ representatives as soon as possible and discuss this information and any additional questions that EPA has about the CPG's COPC mapping approach.

We look forward to continuing the ongoing discussions with EPA on LPR technical matters.

Thank you.
